REMEDIAL COACHING Report 2021-22

With a vision to ensure holistic development, the institute adopts student-centric measures to cater to their diverse needs. With most of the students being from the vernacular medium special attention is paid towards effective curriculum delivery in multiple languages and remedial lectures in the varied subjects across all the courses. This helps to lay the foundation of the curriculum assimilation and knowledge transfer to the students. Remedial Coaching is conducted in subjects wherein the result analysis has been conducted for the students each year which are monitored by the IQAC and Examination committee. The institute provides all necessary infrastructural facilities such as an Audio-visual classrooms, reference books in the library and teacher's notes.

The broad objectives of remedial coaching are:

1. Improving academic skills and linguistic proficiency of the students in various subjects.
2. Raising their level of comprehension of basic subjects to provide a stronger foundation for further academic work.
3. Strengthening their knowledge, skills and attitudes in such subjects, where quantitative and qualitative techniques and laboratory activities are involved so that proper guidance and training provided under the programme may enable the students to come up to the level necessary for pursuing higher studies efficiently.
4. To ensure students perform well in their formative and summative tests held in each semester.
5. The students have a strong foundation over the subject and various concepts.
6. Students are capable of preparing their own notes.

This year the IQAC further pinned down in the hierarchical process ensuring effective flow of remedial coaching. The process is illustrated as below-

To pin down at student's level, this year IQAC involved a mentor-mentee mechanism to receive inputs on student's SWOC analysis. The remedial coaching committee then engulfs and transforms the information to departmental heads and finally to individual teachers. The

Report on Advanced Learners and Slower Learners

The institution assesses the learning levels of the students, after admission and organizes special programs for advanced learners and slow learners.

Students enrolled in arts and commerce are identified as slow and advanced learners based on their internal class test marks and the subjects with least basic knowledge. This helps to identify the slow learners and to design special coaching sessions to bridge the gap between slow learners and advanced learners.

- The college organizes orientation programs for freshers. We introduce the students about the college facility and brief them about the subjects being learnt. In this session we also create a positive attitude and competitive spirit. This helps the slow learner to gain confidence to prepare their mind to learn new subjects.
- Bridge courses are conducted at the department level to boost the students to the level of higher education. Students who have opted secretarial practice in higher secondary face difficulty to understand mathematics. To clear the base of the subject we provide coaching sessions for those students.
- There are some students enrolled in commerce or arts from science background, we provide bridge courses of all the subjects of the respective departments.
- Students from vernacular mediums face difficulty in understanding English. For them we have conducted a course for Business Communication.

Strategies adopted for slow learners

- The students who have scored average or below average marks we give them class assignments or tutorials for practice.
- Remedial classes are conducted to improve the academic performance of the slow learners, or the students participating in sports or cultural events. This helps the slow learners to improve the subject knowledge and help them to reach the level of advanced learners. Especially for practical subjects such sessions are conducted and made to solve them in the class.
- Academic and personal counseling are given to the slow learners by the tutors or mentors.

WDC Report of Selfie Competition

Report

In Collaboration with DLLE and NSS, WDC has organised An Intercollegiate "Selfie Competition" From 24th January 2022 to 26 January 2022 for celebrating "National Girl Child Day".

Though the event was Intercollegiate participants from different colleges along with daughter selfie made the competition successful.

Activity has been conducted successfully.
