- **Instalment Facility for payment of fees**

Introduction: Shurparaka Educational and Medical Trust's Moinuddin. B. Harris College of Arts and A.E. Kalsekar College of Commerce and Management has adopted Instalment facility which is given to all the students irrespective of the caste or creed especially who are from economically weaker sections of the society. Since the very beginning, the Trust and Management had a vision to help the needy and deserving students financially. To bring this into action Instalment facility has been started. And it has been found to be the best practice of the institution.

1.Objective of the Practice: The objective of the practice are as follows:

To increase the number of students

To benefit the weaker sections of the society especially our local areas.

To develop the area by educating girls, who are deprived from education due to financial difficulties

2. Context: Since many of the students were first-generation college students, they needed encouragement to pursue higher education. But because of the college's remote location and the families' financial struggles, a large number of students left school early. In order to address this problem, the college's management considered offering education to the less fortunate members of society by implementing an instalment plan as a support system. The trust and management made the decision to provide financial support to students by allowing them to pay whenever it is most convenient for them, in an effort to prevent students from quitting school due to a lack of funds. The management and principal made the decision to provide the students with an instalment plan.

3. Practice: As a practice, the office staff collects only 25% fees of the total amount from whatever stream the student may be. The student gets admission only on the payment of this amount. The remaining amount can be paid by the students in 4 equal or unequal instalments throughout the year before he final examination. Proper records are maintained and follow ups are done by the Teaching and Non-teaching staff.

4.Evidence of Success: It was observed that students who had been dropped out early owing to financial difficulties were re-admitted even after taking academic breaks after the implementation of the instalment facility. This facility allowed a large number of students from the surrounding area to be admitted to the college. It was also found that every year the number of students kept on increasing gradually. As per this decision every academic year, the number of girl students is also constantly increasing.

5.Problems Encountered: Due to instalment facility given to all the students, it was found that even financially good students do not pay the remaining fees taking undue advantage. Several reminders had to be given to pay the balance fees amount. The genuine cases were considered and they turned to be bad debts. Also at the beginning of the college it becomes difficult to meet the college expenses out of the amount collected as down payment from the students which is a tough task to be performed by the management.

**SHURPARAKA EDUCATIONAL & MEDICAL TRUST
MOINUDDIN B. HARRIS COLLEGE OF ARTS
A.E KALSEKAR COLLEGE OF COMMERCE & MANAGEMENT
