Report of 2nd Convocation Ceremony held on 13th March 2018

A. E. Kalsekar College organized the 2nd Convocation (graduation) ceremony of batch 2016-2017 on Tuesday 13th March 2018. A total of 87 students were awarded the degree during the ceremony. The objective of organizing the ceremony was to give an opportunity to all graduated students to come back to college once again, relive their old memories and get connected with the institution. The event was coordinated by the Alumni Cell. Dr. A. D. Sawant, former vice chancellor of Rajasthan University was the Chief Guest of the ceremony. All the graduated alumni were welcomed by junior students and were presented a convocation Uniform. Dr. Khalil Ahmad, principal of the college welcomed all the students and congratulated them for being official graduates. He wished them for their successful career and asked them to have better association with college through Alumni Association. He highlighted the importance and role of Alumni members in creating better opportunities for current students. Chief Guest Dr. A. D. Sawant, expressed his happiness towards the institute for organizing such activity and motivated students to perform better in their career. He encouraged the Alumni members to take part in institute's development. He shared his wonderful experiences with the graduates of Kalsekar and reminded them of their college days. Many graduates shared their experiences of college life with current students. A panel discussion was also conducted of selected alumni members with students of I, II, III & IV in which students cleared their various doubts with Alumni members and sought their guidance in choosing the right career option. The whole event was successfully coordinated and everybody appreciated the efforts of Alumni Association of Kalsekar. A ceremonial group photograph of all alumni graduates was clicked. Graduated alumni members pledged their allegiance to the Alumni Association.

Report of Alumni Meet 2018- 2019

7th Alumni meet of M.B. Harris College of Arts and A. E. Kalsekar College of Commerce and Management was held on 08th February 2020 in Room no 104 & 105. Around 90 students participated in alumni meet. Our principle Sir, Dr. Mohd Khalil Ahmad had given the speech and encouraged them a lot. Our ex-student Miss. Farid Nishat and Dange Zeenat gave a beautiful speech and expressed the student's role of the institution to nurture the life of the students. She explained how Alumni can work for the better advancement of the institution.

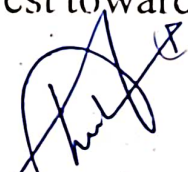

A delicious refreshment was served to all alumni members at the end of the Alumni meet. A short session has been introduced for the feedback of the college. Students showed their positive interest towards the college.

Report of 6th Degree Certificate Distribution Ceremony

S.E.M.T.'s M. B. Harris College of Arts & A. E. Kalsekar College of Commerce and Management, organized the 6th Degree Certificate Distribution Ceremony of batch 2020-2021 on Saturday 7th May 2022. A total of 92 students were awarded the degree during the ceremony. The objective of organizing the ceremony was to give an opportunity to graduated students to come back to college once again, relive their old memories and get connected with the institution. The event was coordinated by the Alumni Cell. All the graduated alumni were welcomed by junior students and were presented a Convocation Uniform. The chief guest for the day was Shri Chandrakant Jadhav –Asst. Commissioner of police Nallasopara. Guest of honors were Shri Vilas Supe Sr. Police Officer Nallasopara, Dr. Vishnu Yadav Principal of SN College Bhayander and Mr. Bhupesh Rane Director of MBA SN College. Our college vice President Mr Sagir Dange, joint secretary Mr Najeeb Chawre, Mr Asim Khan, Mr Moin Chinde part of management team, along with Dr. Khalil Ahmad, principal of the college welcomed all the students and congratulated them for being official graduates. Dr. Khalil Ahmad, principal of the college addressed all the students. He wished them for their successful career and asked them to have better association with college through Alumni Association. He highlighted the importance and role of Alumni members in creating better opportunities for current students. Many graduates shared their experiences of college life with current students. Topper of the BCOM Miss Mehvash Benji had given a valuable speech. Topper of BA Miss Arshi Kazi also shared her experience of college journey. Panel discussion was also conducted of selected alumni members with present students in which students cleared their various doubts with Alumni members and sought their guidance in choosing the right career option. The whole event was successfully coordinated and everybody appreciated the efforts of Alumni Association of Kalsekar College. A ceremonial group photograph of alumni graduates was clicked. Delicious refreshment had been served to the students during the Alumni Meet which was co-ordinated by alumni Association's Incharge Asst. Prof. Shahida Shaikh. Co-ordinators Asst. Prof. Irshad Shaikh, Asst. Prof. Elakshi Tawade & Asst. Prof. Pooja Shirsekar congratulated the graduates and informed them about the role of Alumni Association. Graduated alumni members pledged their allegiance to the Alumni Association. Alumni Convener Asst. Prof. Shahida Shaikh thanked the Alumni Students.

5th August, 2020

NOTICE

All the students, teaching and non-teaching staff are hereby informed that Degree Distribution will be held on Saturday, dated 7th August 2021 at 11 a.m. in A.V. Room.

Students are requested to be present by following below mention safety measured considering Covid -19-

- Keep physical distance of at least 1 metre from others, even if they don't appear to be sick.
- Avoid crowds and close contact.
- Wear a properly fitted mask when physical distancing is not possible and in poorly ventilated settings.
- Clean your hands frequently with alcohol-based hand rub or soap and water.
- Cover your mouth and nose with a bent elbow or tissue when you cough or sneeze. Dispose of used tissues immediately and clean hands regularly.

Report of 5th Degree Certificate Distribution Ceremony

S.E.M.T.'s M. B. Harris College of Arts & A. E. Kalsekar College of Commerce and Management, organized the 5th Degree Certificate Distribution Ceremony of batch 2019-2020 on Saturday dated 7th August 2021. A total of 20 students were awarded the degree during the ceremony considering Covid -19. The objective of organizing the ceremony was to give an opportunity to graduated students to come back to college once again, relive their old memories and get connected with the institution. The event was coordinated by the Alumni Cell. All the graduated alumni were welcomed by junior students and were presented a convocation Uniform. Dr. Khalil Ahmad, principal of the college addressed all the students and congratulated them for being official graduates. He wished them for their successful career and asked them to have better association with college through Alumni Association. He highlighted the importance and role of Alumni members in creating better opportunities for current students. Many graduates shared their experiences of college life with current students. Toppers of the BMS Miss Tazeen shaikh had given a valuable speech. Topper of BFM Mr. Aftab Mujawar also shared experience of his college journey. Panel discussion was also conducted of selected alumni members with present students in which students cleared their various doubts with Alumni members and sought their guidance in choosing the right career option. The whole event was successfully coordinated and everybody appreciated the efforts of Alumni Association of Kalsekar. A ceremonial group photograph of alumni graduates was clicked. Delicious refreshment had been served to the students during the Alumni Meet which was coordinated by alumni Association's Incharge Asst. Prof. Shahida Shaikh. Co ordinators Asst. Prof Irshad Shaikh & Asst. Prof. Elakshi Tawade congratulated the graduates and informed them about the role of Alumni Association. Graduated alumni members pledged their allegiance to the Alumni Association. Alumni Convener Asst. Prof. Shahida Shaikh Thanked the Alumni Students.

All the safety covid -19 measures were followed during the ceremony.

Report of Alumni Meet

9th Alumni meet of M.B. Harris College of Arts and A. E. Kalsekar College of Commerce and Management was held on Saturday dated 07th August 2021 in A V. room. Around 20 students participated in alumni meet considering Covid -19. Our principle Sir, Dr. Mohd Khalil Ahmad had given the speech and encouraged them a lot. Our ex-student Mr. Aftab Mujawar and Tazeen Shaikh gave a beautiful speech and expressed the student's role of the institution to nurture the life of the students. She explained how Alumni can work for the better advancement of the institution.

A delicious refreshment was served to all alumni members at the end of the Alumni meet. A short session has been introduced for the feedback of the college. Students showed their positive interest towards the college.

An alumni association is an association of graduates or, more broadly, of former students (alumni).

The purpose of an association is to foster a spirit of loyalty and to promote the general welfare of the organization. Alumni associations exist to support the parent organization's goals, and to strengthen the ties between alumni, the community, and the parent organization.

Today, alumni relations is an important part of an institution's advancement activities for many reasons such as :-

Alumni are an institution's most loyal supporters.

Alumni are fundraising prospects.

Alumni generate invaluable word-of-mouth marketing among their social and professional networks.

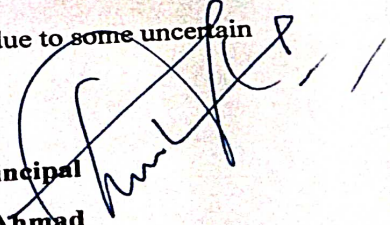

By engaging alumni, an institution can continue to benefit from their skills and experience.

Alumni Association comes under "Association of Persons" classification according to Income Tax laws of India. Generally, it gets registered as a society under the Society Registration Act of the respective state where the registered office of the alumni association will be situated. The society will have its own PAN number, bank account and office bearers. Mandatory positions held are Secretary, Treasurer, Vice-President and President. The members of the association keeps on varying as there are many students who pass-out every year and they join the alumni association.

Our college have started registration process of Alumni Association but due to some uncertain circumstances its on hold .Very soon college will start further procedure.

Prevent Air Pollution Caused by Vehicles

Code - 5-06

INTRODUCTION

Prevent Air pollution caused by vehicles through our Device which will eliminate some harmful gases which is produced by burning of Gasoline/Petrol and released in the environment through a Tailpipe of every Vehicle. Our device would be used at the end of the Tailpipe of every vehicle. Formation of device is expected within one year due to delay in getting parts of our device. For now we can make a presentation through which we can easily understand exactly how our device will look like and how it will work.

OBJECTIVES

1. The overall objective of Making a device which can help in reducing carbon dioxide gas produced by each and every Vehicles (auto-rickshaws, Car's, trucks, buses and Etc).
2. The main goal is to prevent adverse responses by all receptor categories exposed to the atmosphere: human, animal, vegetable, and material.
3. Pollution prevention protects the environment by conserving and protecting natural resources while strengthening economic growth through more efficient production in industry and less need for households, businesses and communities to handle waste.

RATIONALE AND GAP ANALYSIS

- B.1. The Rationale for protecting nature from air pollution caused by vehicles is summarized in the points below:**
1. Rapidly increasing urbanization is stretching the infrastructure and threatening the environmental quality.
 2. Sprawling urban areas in India are contributing to traffic congestion, air pollution caused by vehicles emitting nearly 75% of carbon dioxide.
 3. CO2 Gas produced by vehicles when inhaled blocks the transport of oxygen to the brain, heart, and other vital organs in the human body.
- B.2. The gap analysis of preventing air pollution caused by vehicles are given below:**
1. In today's world air pollution is caused by vehicles and industries more than 78% per year.
 2. A typical passenger vehicle emits about 4.6 Metric tons of carbon dioxide per year. (This assumes that the average gasoline vehicle on the road today has a fuel economy of about 22.0 miles per gallon and drives around 11,500 miles per year).

3. After application of our Device it is assumed that we can reduce at some extent of these 4.6 metric tons of carbon dioxide produced per year.

4. India is at the bottom of the charts when it comes to clean, safe air, India ranked least, indicating that they have the world's most polluted air.
5. After application of our device we can make India cleanest country in the world.

6. How much of a problem is worldwide air pollution? Both indoor and outdoor air pollution are still a threat to human health worldwide, contributing to approximately 5.5 million deaths per year.

7. After application of our device it is expected that we can reduce this death rate at some extent.

HYPOTHESIS

Vehicles which will not be able to use our device Emit more toxic gases and pollutants in the atmosphere than the vehicles which will use our device.

RESEARCH METHODOLOGY

- E.1. Data Collection:**
1. The data used in this study were the secondary data obtained by Google software. Data collection of pollutant concentration in ambient air was conducted from google software.
 2. With emission calculations using the emission factor formula showed that the largest percentage of carbon monoxide & emissions came from motorcycles while for nitrogen oxide and sulfur dioxide pollutants were from vehicular trucks.
- E.2. Data Analysis:**
1. Data analysis conducted are as follows: Pollutants released by motorist vehicles include carbon monoxide (CO), carbon dioxide (CO2), nitrogen oxide (NOx) in the form of nitric oxide (NO) and nitrogen dioxide (NO2), hydrocarbons (HC), sulfur oxides (SOx) in forms of sulfur dioxide (SO2) and sulfur trioxide (SO3), and particulate matter (PM10) which causes serious health impact. Light Motor Vehicles (Passenger) Produce : CO2: 4378.10 , CO: 370.29, NOx: 82.93, SO2: 7.11, PM: 14.52, HC: 10.16 (Source: Central Pollution Control Board Status of the vehicular pollution control program in India (2010).

E.3. Results and discussions:

1. Reduction in air pollution caused by vehicles by using our Device on the Tailpipe of every vehicle. As we all know that every vehicle emits different gases and has differently shaped tailpipe which results in making different designs of our device for each vehicle, so for now we are only focusing on autorickshaws which are more than 0.6 million in India. It is assumed to reduce some rates of the pollutants released by vehicles which includes carbon monoxide , carbon dioxide, Etc. The next step was to do the calibration.

PRELIMINARY WORK / SURVEY

1. This preliminary work is generated with the help of google software. 51% of the pollution is caused by industrial pollution, 27% by vehicles, 17% by crop burning and 5% by other sources. Air pollution contributes to the premature deaths of 2 million Indians every year.
2. In Indian cities, a major part of air pollution is sourced, all year around, from burnings of diesel, petrol, gas, coal, biomass, and waste and re-suspended dust. Reducing pollutants in the air is important for human health and the environment. Poor air quality has harmful effects on human health, particularly the respiratory and cardiovascular systems. Pollutants can also damage plants and buildings, and smoke or haze can reduce visibility.

EXPECTED OUTCOME

Our Expected outcome is to prevent air pollution at some extent and reduce the rate of deaths due to pollution in India as it is most polluted country in the world, with our device we can also help other countries to prevent from air pollution. For now we are focusing an good outcome through our device with the help of auto-rickshaws as it will reduce some amount of harmful gas produced by vehicles.

BENEFITS TO THE SOCIETY

1. Reducing air pollution through our Device can help tackle climate change. Carbon dioxide may be the largest driver of global warming and climate change but it is not the only one.
2. Controlling air pollution has a number of other advantages, including improved visibility, cleaner buildings, a higher

quality of life, and the availability of natural resources in their purest form.

3. Reducing pollution at its source can have a rapid and substantial impact on health. Within a few weeks, respiratory and irritation symptoms, such as shortness of breath, cough, phlegm, and sore throat, cardiovascular stress, and death, and all-cause mortality decrease significantly.

4. There are lots of benefits of the society if we control our air pollution at some extent. Today we are starting application of our device from one vehicle but in future it will be available for each and every vehicle.

5. Make in India, this project supports make in India as every components would be purchased and manufactured in India hence this can help India to develop it economically.

COST BENEFIT ANALYSIS

1. A typical composition of the health costs due to Air Pollution:
2. our device can effectively help in increasing Economic Growth.
3. Approximately build a new device will cost 2000 (The amount can be increased in future) with expected sale of 2000 (per unit price = 4000) Sales of benefits therefore are 4000. The simple calculation for C/B A for this project is 4000. Monetary benefits minus 2000 cost equals a net benefit of 2000 (For per Unit).

FUTURE SCOPE

1. The need of controlling air pollution in India is necessary because air pollution is increasing day by day and this is the worst thing happening around the world. A single vehicle emits 4.6 metric tons of carbon dioxide gas per year. Hence in control this disaster we need to use such device which will make sure to reduce the carbon dioxide production rate at some extent.
2. It is assumed that by the time we would improve our device for each and every vehicle and we can reduce the air pollution rate at some range across the world.
3. Catastrophic impact of Air Pollution in the Future. The impact of increasing air pollution is more dangerous than you think. If air pollution is not controlled, by 2030 the air will become so poisonous that it will be necessary to use an oxygen kit to breathe. Hence there is a big scope in it!

SWOC ANALYSIS / LIMITATION

1. Strength : Our primary strength is we are providing solution for the big disaster which will occur in future. And our secondary strength is there are least researchers who are researching on how to control air pollution which is caused by vehicles and industries. If we move forward we will make filters also for industries to filter out every dust and harmful gases which is produced during industrialization. As India is a developing country.
2. Weakness : Leakages or accidents at nuclear power plants, as well as from improper disposal of nuclear waste are also reasons for this pollution. In the beginning we can focus on each and every vehicle but we have a vision to make our device helpful for every type of vehicle and industries.
3. Opportunities : There are lots of opportunities in future in reducing the air pollution through our device and as well as scope of cost benefits and this business will play an important role in growth and development of economy of India. If our device will work effectively in India on every vehicle then we can introduce our device in other countries as well.
